

WPA Section

Dear friends and colleagues

We have received more than 40 requests for symposia and workshops to be held on the Dual Disorders track for the WPA congress. Unfortunately the committee didn't have space enough for so many proposals: We were obliged to reduce them to a total of 21 and this also implied that we needed to do some changes in the symposia in order to cover as much proposals as possible.

I would like to apologize for the changes done and also for the colleagues we had to exclude from the program.

During the Congress we plan to organize a meeting of the WPA section on DD. The date and exact place where it will take place will be announced within the coming weeks.

Please do not hesitate to contact me in case you have any question.

Best wishes

Nestor Szerman
